

## **322% Three Year Growth puts American Radiologist Network on the 2010 List of Fastest-Growing Private Companies in the United States**

**Founders attribute AMRADNET's success to its innovative platform and network of expert physicians**

BOCA RATON, FL, Sept. 07, 2010 –

American Radiologist Network (AMRADNET), the provider of [Real-Time Collaborative Platform](#) for comprehensive medicine, today announced it is ranked 69 in Healthcare on the 2010 Inc.'s list of fastest growing private companies in the US. AMRADNET debuted in the list by posting three-year sales growth of 322%. The firm fared extremely well in the list with a ranking of 27 in Florida and an overall placement of 930.

"Fast growth at any time is a big achievement; fast growth during the past few years is just short of miraculous," said *Inc.* editor Jane Berentson.

AMRADNET's growth has been fueled not just by new sales but to a great extent by the success of its existing clients. In the last two years, several mobile and portable diagnostic service providers, imaging and medical clinics have more than doubled their revenue by streamlining operations, expanding offerings and improving service levels using AMRADNET's solutions and services.

"I believe our trailblazing service and continuous state-of-the-art improvements along with what we've created as the world's fastest system for moving medical information, has put us ahead in the rapidly changing healthcare environment" said Neil Iyer, Founder and Chief Executive Officer of AMRADNET. "With our Collaborative Medicine on Demand platform, we've developed a bold new approach – moving healthcare delivery a giant leap forward – allowing healthcare professionals to focus on their most important task: providing patients with the finest care."

"It's exactly like having a network of dedicated specialists, primary physicians, nurses and diagnostic technologists at the patient's side, accessed in real time – anywhere, anytime" adds Dr. Charles Mandell, Co-founder and chairman of AMRADNET. "We are a part of the medical team collaborating seamlessly on all aspects of patient care".
